

10.1. RECOMMENDATION:

Should NURSES perform external cephalic version (ECV) for breech presentation at term?

Problem: Poor access to ECV
Option: Nurses performing ECV
Comparison: Care delivered by other cadres or no care
Setting: Community/primary health care settings in LMICs with poor access to health professionals

Recommendation	<i>We recommend against the option</i>	<i>We suggest considering the option with targeted monitoring and evaluation</i>	<i>We recommend the option</i>
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
We recommend against the use of nurses to perform external cephalic version.			
Justification	There is insufficient evidence on the effectiveness of nurses performing external cephalic version, the intervention is outside of their typical scope of practice, and its acceptability is uncertain.		
Implementation considerations	Not applicable		
Monitoring and evaluation
